

notify them by certified mail. With this change, they could put notice in the paper to those in the corporate limits and they could do it once a week for three weeks in a row. The second thing that it does is it addresses a problem whereas technically on some lease power arrangements, on some water rights, if the fee is not paid by the first of the year, technically the law, there will be some problems. The way the law reads right now that lease would become obsolete and they would have to do it again. This law would allow them to give a little 45 day leeway. And, also, as I said, it said that it repeals some obsolete statutes. Namely, the one I found interesting is in the present statute, in the law passed in 1917, it is illegal to have your hogs in irrigation ditches, and if you had a hog in an irrigation ditch, you are guilty of a Class IV misdemeanor. That may be a little heavy and so we felt that was a little obsolete and so we are repealing that statute of law, too. And so, it is a little "trust me" bill and I urge you to advance it.

SPEAKER BARRETT: Thank you. Discussion? If not, the question is, shall LB 140 be advanced to E & R Initial? All in favor vote aye, opposed nay. Have you all voted? Record.

SPEAKER BARRETT: The bill is advanced. Anything to read into the record, Mr. Clerk?
